Day trading the cryptocurrency market can be a very lucrative business because of the high volatility. Since the crypto market is a relatively new asset class, it has led to significant price swings. Before day trading Bitcoin or any other altcoins, its prudent to wait until we have a high reading of volatility.

It is a very risky trading strategy too, but with the right approach, it can be used to cash in on the short-term volatility in the market. However, not all cryptocurrencies are suited for day trading. In fact, here are some attributes that typically define the best day trading assets.
