

Sure, there are no issues in mining directly to your coinbase wallet address. However it is not recommended. Its not that coinbase dont recommend sending mining payouts to coinbase wallet. But because it is unreliable. At times due to heavy trading activities coinbase server goes offline and during such time your mining payouts may get lost.

CEX.io stands as one of the safest and most reputable crypto exchanges. While their fees might not be as low as those of Poloniex, for example, the platform surely ticks the best part of our criteria. They also have fantastic customer support and take security issues very seriously which lands CEX.io a spot on this list.

Mining is the process that Bitcoin and several other cryptocurrencies use to generate new coins and verify new transactions. It involves vast, decentralized networks of computers around the world that verify and secure blockchains the virtual ledgers that document cryptocurrency transactions. In return for contributing their processing power, computers on the network are rewarded with new coins.
