IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .

In this period of crypto regulations and KYC verifications, choosing the right exchange for your needs is more and more important: So I decided to write a little guide about the pros and cons of the most and less known exchanges (also because I didn't see a proper list in this subreddit), If you want to let other people read this guide, consider upvoting (I worked a lot to create this post).

The Corporate Account Verification process is used for business accounts and not for personal use. Additionally, you will not be able to merge a Corporate account into an already existing Personal account. 1. Log into your account and visit the Settings tab. 2.
