Award Winning Trading Platform - Interactive Brokers®

The international money markets major responsibility is to handle the currency trading between the countries. This process of trading a countrys currency with another one is also known as forex trading. Unlike share markets, the international money market sees very large funds transfer. The players of the market are not individuals; they are very big financial institutions.

An international money transfer or international bank transfer (also commonly referred to as an international wire transfer) involves sending money to either another person and/or company overseas. This transaction can be completed either through a bank (the traditional method) or a specialist money transfer service.
