In order to save time I decided it would be best to show them the logo of each crypto and read them the name, if they barked, that meant they wanted me to buy some. I decided to allocate their \$100 in three equal parts among the first 3 projects they barked at. This way they would have a diverse portfolio. The results were the following:

Controlling shares of the token have been burned meaning that no one can retrieve the initial liquidity provided to PancakeSwap to enable trading, and no one can make any alterations to the smart contract. That makes Saturna unuggable as there is no mint function to change the supply or alter the current tokenomics.
