Altcoins are coins that were created after Bitcoin and have established themselves as better alternatives for the base coin! So, technically, any cryptocurrency other than Bitcoin is an altcoin, and they account for over 40% of the total cryptocurrency market, according to Investopedia. There are currently over 9,000 altcoins in the market today.

Coinbase is a really popular website used for buying and selling cryptocurrencies of all types including Bitcoin too. However, as heard according to the recent reports, there were some problems reported with its account verification and hence people are in need of more sites like Coinbase for the exchange of digital currencies.
