Why is Coinbase so slow? - Quora

Coinbase has been hit-and-miss for me for the past month. For example I&#39;ve had: 1 &quot;instant transfer/buy&quot; that took 23 hours for the coins to arrive. The next day, before my original purchase arrived I needed to make a small additional order to compensate for a rate drop and that one went through right away.

Another reason that a Coinbase account can become restricted is if Coinbase considers an account to be at high risk of crypto fraud. This includes mining scams as well as information hacks. If this happens, Coinbase may restrict the account and prevent buying and selling on that account.
