Solana aims to improve blockchain scalability by using a combination of proof of stake consensus and so-called proof of history. As a result, Solana claims to be able to support 50,000 transactions per second without sacrificing decentralization. SOL is not yet available on Coinbase.com or via our Consumer mobile apps. We will make a separate announcement if and when this support is added.

Please note that the amount To Buy is indicative and includes both a fee charged by Simplex and a fee charged by eToroX. Currently, Simplex charges 4% of the total transaction cost, and eToroX charges 1%. Due to variations in the market and blockchain that are beyond eToroX's control, the eventual amount received may be different.
