The main way that a Coinbase account can become restricted is if Coinbase considers an account to be at high risk of crypto fraud. This includes mining scams as well as information hacks. If this happens, Coinbase may restrict the account and prevent buying and selling on that account.

Some people where unrestricted because they just signed in to their computers, answered a few questions and that was it, but most of people where not that lucky. So, without further ado, here is a solution for unrestricting your account: Sign in to Coinbase using your computer. You will see verification window immediately.
