"User is unable to sell", why? My account has no restrictions and i live in a country where i am eligible to buy, convert and sell coins. I transferred 100\$ of btc from my external wallet to test out coinbase for a change, i converted it to xrp and now it wont let me sell it, everytime i try it just gives a "user is unable to sell" message, what do?

In order to connect your bot to Coinbase Pro, you need an API key. Think of an API key as a bridge between Cryptohopper and the exchange, which allows your bot to do things like place automated orders and read your balance for its calculations. Step one. Go to the exchange website, and create an account if you haven't already. Step two. After you have logged in successfully, click on your name in the top right corner, and click "API";.
