Moving averages are among the most popular Polymath price prediction tools. As the name suggests, a moving average provides the average closing price for POLY over a selected time period. For example, a 12-day simple moving average for POLY is a sum of POLYs closing prices over the last 12 days which is then divided by 12.

IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .
