Coinbase announced on November 24, 2020 that it would no longer offer margin trading to investors. This came as a result due to a change in regulation from the Commodity Futures Trading Commission. They stated the following:

Your long-term crypto investment involves maintaining it for a period based on your investing goals. Typically, long-term investors hold their investments for several years or decades to grow their returns. So, if you believe blockchain-based technology will explode in the future, investing in crypto for the long term can be a great option.
