An option you purchase is a contract that gives you certain rights. Depending on the option, you get the right to buy or the right to sell a stock, exchange-traded fund (ETF), or other type of investment for a specific price during a specific period of time. Investors and traders use options for a few different reasons.

As Coinbase announced on its blog post today, the San Francisco-based exchange is considering offering new trading options and adding 18 new tokens to its system. In my opinion, Coinbase stock seems to be directly tied to the crypto market at large. They went public and crypto started crashing. As far as if they are terrible company or not, I think complaints in a subreddit wouldnt be a good way to gauge something. Pretty much every crypto company subreddit has complaints in it.
