A decentralized exchange is a cryptocurrency exchange where you can trade cryptocurrencies from your own wallet without trusting third parties. Decentralized exchanges are powered by smart contracts which allow users to trade cryptocurrencies directly with other users or through liquidity pools. Decentralized exchanges are non-custodial exchanges and based on smart contracts, so there is no need to trust a third party with your funds.

Binance must pay these fees to miners to ensure that transactions are processed. Since transaction fees are dynamic, you will be charged according to the current network conditions. The fee amount is based on an estimate of the network transaction fees and can fluctuate without notice due to factors such as network congestion. Please check the most updated fee listed on each withdrawal page.

Getting low transaction fee on Binance is easy, but kind of tricky somehow. Binance is one of the best exchange platforms with lowest fees among other exchanges in the market. It allows close to 0.1% trading fee for users with a monthly trading volume less than 50 BTC, and much more less for those trading higher than that volume. I myself have been using Binance for trading for over some years now, and I cant remember noticing the amount of crypto coins am paying as fee paid yet, some .
