Bitfinex is the longest-running and most liquid major cryptocurrency exchange. Founded in 2012, it has become the go-to platform for traders & institutional investors.

To help you find the right crypto exchange for you, Forbes Advisor combed through the leading exchange offerings and reams of data to uncover the best. . like spot price and 24-hour highs, lows .

What you need to do then is to connect your Ledger Nano, run the Fido U2F app (logo is id) and confirm the action on your device: When it's done, you can simply give a name to your security device. Binance restrictions on the name of the security key are not clear enough but basically you can't use anything except the standard alphabet characters (no spaces, no punctuation, no symbols, etc).

A US citizen wont be able to get KYC on KuCoin but the exchange still allows you to trade as long as your crypto deposit is not previously blacklisted by other exchange. 5 BTC is a lot of money and unless you plan to withdraw more than \$250k worth of USDT every 24 hours you wont have an issue.
