So, in this context, Storj is worth buying. Is Storj a good investment? Storj is, just like all other cryptocurrencies, a risky investment. It does have higher probability of going up than down because of the good use case, well-designed tokenomics, active community and a solid team behind it. How much will Storj be worth? For the short-term future, it could reach \$1.86.

Storj is noble and good, but unfortunately, it is facing very stiff competition, and it is probably a major reason why its price is expected to struggle in the next few years. Apart from traditional competition from the likes of Google and Amazon, Storj also faces competition from the crypto market, namely Siacoin and especially Filecoin.
