UFX Review. UFX is an online forex and CFD trading broker that offers over 500 assets on its proprietary platform and MetaTrader 5 (MT5). They provide clients with daily market analysis, signals and a selection of other trading tools. However, they dont have the tightest spreads and their fees are very high when compared to other online brokerages.

MY experience with UFX is much the same as most of the reviewers here. 95% of the brokers I was allocated to spent most of their time telling me the only way to make money was to continue to increase the amount in your account. They suggested I mortgaged my house, borrowed from my family or used my credit card.
