People invest in stocks because those are actual businesses making actual money that they actually give out to their shareholders. And even those are considered incredibly risky investments. Right now in crypto, if you've only been playing the game for a couple of months, you've only known winning.

Below are the strategies for long-term investing. 1) You cant time the market. No one has ever successfully timed the market consistently over multiple stocks and the crypto market is no different. Stay away from being a day trader and avoid trying to guess the highs and lows.
