IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .

Today, most of the big crypto futures exchanges offer 100x leverage: Deribit, Bybit, and FTX, just to name a few. However, is this truly in the best interest of exchanges users? For most new traders, the idea of 100x leverage sounds extremely alluring. After all, who wouldnt want to trade with \$100,000, while only having a \$1,000 account.

All of the contracts listed by Margex are denominated in USD. Currently, the exchange doesnt list any crypto-to-crypto trading pairs. Leverage limits are the same for all cryptocurrencies a minimum of 5x and a maximum of 100x. Margex covers the largest crypto assets by market cap as well as YFI, a popular DeFi token. This selection will be enough for many cryptocurrency traders, but wed still like to see Margex step up their game on this front.
