A Short Introduction to the World of Cryptocurrencies

In order to connect your bot to Coinbase Pro, you need an API key. Think of an API key as a bridge between Cryptohopper and the exchange, which allows your bot to do things like place automated orders and read your balance for its calculations. Step one. Go to the exchange website, and create an account if you haven't already. Step two.

I understand that many will pause and treat this post with derision upon reading the title. However, the more I read about Hydra, the more it seems that the team is trying to reach a compromise and make it work as opposed to working with the best scaling solution. I recently made a post referencing a comment thread/discussion between an ethereum zk-rollups supporter and the cardano community .
