Such nodes require extraordinary amounts of storage and memory. It often takes hours to join and sync to the network with a full node. Running a full node with cloud services will likely require you to pay a monthly service fee. Compare this with using a light node. These take up less space and can be small enough to run on mobile devices.

Binance, Huobi Global, Coinbase and Kraken are the platforms that handle most of the transaction volume in the crypto market. 3. Verification (KYC) Process Verification is an important process to consider when signing up a crypto exchange provider. Some providers have verification steps where you need to submit documents that verify your identity.

In terms of investing, SKL is a very long term play. MATIC circulating supply is 10 times higher (5 billion) than SKL (564 million), but price ratio is just 2:1. Just from that I would say SKL has a better potential. But that's just pure speculation at this point from my side.
