Margin Trading Definition: Online Trading with margin is the actual trading with borrowed capital. This borrowed capital is lent by the broker and it is available to the trader, who must deposit a margin. The trader can, therefore, trade more capital on the financial markets than he actually owns. Higher profits and losses are thus possible.

In margin trading, your trading account is extended credit to increase its trading value. When you trade on margin, each dollar in your account is worth more in a trade than it is at face value. This method creates the possibility for huge gains but also significant losses. Margin trading is best for experienced traders who have a clearly defined risk management policy.

Margin trading is when you buy and sell stocks or other types of investments with borrowed money. That means you are going into debt to invest. Margin trading is built on this thing called leverage, which is the idea that you can use borrowed money to buy more stocks and potentially make more money on your investment. But leverage is a double-edged sword that also amplifies your risk.

While there are other ways to purchase crypto, many people acquire crypto on cryptocurrency exchanges. Upon making a purchase, the cryptocurrency you acquired is automatically stored in your exchange-hosted wallet, which is typically custodial, meaning the exchange has control of your private keys. By holding your keys for you, crypto exchanges give you easier access to your funds via a more familiar username and password configuration, which allows you to trade seamlessly on the exchange.
