The main difference between MT4 vs MT5 for this point of comparison is that MT4 has fewer technical indicators built in to the platform. However, it has a larger library of third party plug-ins than MT5 does. This is probably because MT4 has been around for longer and still has a larger community of traders using it.

MT5 is faster and more efficient than MT4. MT5 is a 64-bit, multi-threaded platform, whilst MT4 is a 32-bit, mono-threaded platform. Both MT4 and MT5 contain internal mailing systems, though MT5 offers this service with attachments.
