Get detailed information on Harmony (ONE) including real-time price index, historical charts, market cap, exchanges, wallets, and latest news.

Launched as part of the initial exchange offering (IEO) on the Binance Launchpad in May 2019, Harmony (ONE) is a decentralized blockchain platform designed as a bridge between scalability and decentralization efforts. Its development went under the motto of decentralization at scale with the focus on data sharing and the creation of marketplaces of fungible tokens and non-fungible assets.

Just like all the reviews say, Bittrex exchange is a scam, they will lock your account and steal all your money at some point in time, it might work a few times and goes smoothly but out of nowhere your account can get shut down and your money gone forever and the support will tell you there is nothing they can do.

So I lately invested in cryptos as a long term investment, but soon realized that there is massive potential for day trading as well. If someone starts trading with \$1,000 and makes 1% profit per trade (which is not even that much in crypto - it happens multiple times a day on most coins, even in the current crash), all someone really needs is 700 trades due to the power of compound interest.
