An API Key can be considered as a username. This is generated by the exchange once you declare your settings. An API Secret or API Private Key is simply another string of characters that must be used in combination with the API Key to establish the connection. An additional security layer can be added by generating an API Passphrase. While the API Key and Secret are generated by the exchange, the Passphrase is commonly generated by the user.

Sending osmosis rewards to a seperate wallet. Support. As most of you know, we can redirect the staking rewards to a separate wallet by specifying the rewards address and performing a one-time blockchain transaction on cosmystation. Is there any way to send the liquidity rewards and bonus awards to a different wallet address (from/to a ledger .
