Firstly, there are one major difference between day trading cryptocurrency and day trading real-world assets. The reason for this is volatility. Volatility is when the price of an asset moves up or down really quickly, meaning it can either be a great success for the trader or alternatively a great failure.

Day trading the cryptocurrency market can be a very lucrative business because of the high volatility. Since the crypto market is a relatively new asset class, it has led to significant price swings. Before day trading Bitcoin or any other altcoins, its prudent to wait until we have a high reading of volatility.
