In the U.S., penny stocks are defined as stock shares that trade for \$5 each or less. They're generally thinly traded. This means they are traded infrequently and it's difficult to accurately price them. This can also make them difficult to sell. Sometimes unexpected companies can fit broadly into the penny-stock category.

Improved copying speed; In MT4, run trading actions in parallel - copy multiple new signals at the same time - using an optional worker EA; Improved automatic detection of different symbol names on different broker accounts, reducing the need for manual settings; Override the copier's actions using your own MQL code; This is the MT4 version of the Copier.
