Gold Secured Currency is the Worlds first growth coin and the first coin that rises in asset value. GSX gives its owners the benefits of having a minimum asset value, like a stable coin, while also facilitating growth in value like traditional cryptocurrencies. As the trust backed assets grow, this will continually be adding to the value of GSX.

Copy trading is the trading methodology whereby investors across financial markets can automatically open positions and execute trades in accordance with the portfolio of another selected entity or individual in the market. It can either be automatic or manual depending on how the individual would like to approach copy trading.

The goal of copy trading, like regular trading is to open positions on various financial markets including FX, CFDs on Stocks, Commodities, Indices and Cryptocurrencies, and then to close the position, hopefully once the value of the asset has moved higher. Although, much like trading for yourself, here you can also incur losses too.

Login to your Binance account. If you don't have a Binance account yet, you can register here. On the Wallet dropdown list, click on Fiat and Spot. On the Yesterdays PNL metric, click on the >link on the right side of the percentage metric.

When you enter your bank credentials, you are actually doing so on a form provided by a third-party bank data aggregator called Plaid. It's a system used by most personal finance apps, like Venmo, Robinhood and Acorns. Plaid, in turn, is trusted by a long list of banks and credit unions. HiCharlie never sees your bank credentials; Plaid does.

Sometimes the PNL of the previous days would change drastically, going from negative to positive and viceversa. Binance's customer support has never been able to answer my questions about how this could happen, nor about how the different values on the page were actually computed.
