In the U.S., penny stocks are defined as stock shares that trade for \$5 each or less. 1 They're generally
thinly traded. This means they are traded infrequently and it's difficult to accurately price them. This can
also make them difficult to sell. Sometimes unexpected companies can fit broadly into the penny-stock
category.

Decentralized exchange or DEX is a cryptocurrency exchange market or platform that operates independently without any central authority or third-party intervention for holding or transfer of customers funds. Peer to peer or P2P transactions occur between interested parties directly through an exchange of crypto assets or cryptocurrencies. All these transactions take place through a decentralized escrow account and smart contracts.
