Major League Baseball has signed a long-term partnership with FTX, marking the first time that a North American pro sports league has partnered with a cryptocurrency exchange. The global partnership makes FTX the official crypto exchange brand of MLB. FTX.US (the companys U.S.-specific brand) also reached an agreement with the MLBPA for rights to use player highlights in its content.

Binance commands a huge share of the crypto exchange market, boasting nearly 8 million users and counting. The site is so popular, its previously had to temporarily halt its acceptance of new users so it could update its infrastructure to accommodate the surge in traffic. Because the sites visitors continue to increase in number, you may want to have another exchange up your sleeve in case of another temporary ban in new users.

Having talked about one of the ways of building a cryptocurrency exchange, lets now focus on what are the main steps involved while building a good cryptocurrency exchange like that of Binance. First things first give utmost importance to the design creation. This basically involves two steps wireframes, where the key features are implemented, and a prototype which is nothing but a detailed visualization of the users interaction with the application that allows preventing .
