There are many strategies for solving a cryptoquote successfully and improving your time. Syndicated puzzle author Denise Sutherland recommends looking at one-, two- and three-letter words first. Start with any one-letter words, since there are only two words in the English language that are spelled with one letter: "I" and "a." And because all two-letter words include a vowel, thinking about them next is a good strategy, as you may be able to identify or eliminate a few vowels quickly.

A trading similar is essentially a copy of the stock market on a virtual trading platform. These virtual platforms provide market data like you would generally see in your active trading account. But theres one big difference. In your active trading account, your trades are made using your money. So, when you lose, you lose real money.

Look for Common Letters The first step is to realize that the most common letters in the English language are E, T, A, O, and N, with I and S a close second. So, the first step to solving the puzzle is to look at what letters occur most often in the above gibberish, and work with them. M, R, and S appear three or four times each.
