1inch.Exchange is an aggregator of decentralized exchanges. It has been active since 2019. You can swap tokens here, and also place limit orders for a wide variety of tokens. The orders you place are not only placed against the platform's own order book. Rather, it is placed against a number of other DEXs order books (dependent upon your settings).

They also have their own standout features that set them apart from the bunch. For instance, the many advanced trading tools of NinjaTrader trading software makes it a formidable contender as the best trading platform for beginners. Also, the cTrader Forex trading platform prides itself as being a fierce opposition to MT4. This is a feat many other Forex trading platforms are struggling to achieve.
