Hello, I have a problem with my verification on Binance. I uploaded my ID card and it scanned my face, to get verified. Next day I got a message and email, that the verification failed, because of „Uploaded selfie has significant difference from previous one“.

Anyone else also got problems with facial verification? I have been trying lots of times for a few days already and it kept saying that verification failed for some reason. Update (30th November): Binance escalated my ticket and asked me to send them a video of my face and ID for verification purpose.
