Shares of the cryptocurrency company went public through a direct listing and not a traditional initial public offering, which means the company is not selling shares to raise money but just.

Owning the Masternode is more profitable than crypto mining and it is much easier to run the Masternode. Therefore, this is a fairly convenient option for users who want to earn crypto. The Masternode is a specially configured and accessible crypto wallet with a coin balance that should be enough to participate in the network as a trustful node.
