The arbitrage strategy is popular because it allows buyers to gain without risking much of their investment in

the process. Arbitrage traders make small gains that add up over time. The profits might seem small at first, but they can compound. You can participate in crypto arbitrage without putting your initial investment at risk. On an Apple device, select Quick Quote > enter symbol > tap on the chart to reveal hidden menu > tap the beaker icon on left side of chart, then select study category. Tap the plus + icon next to your desired study to add it. Once added, you can then adjust your study by selecting the gear icon on the right side.
