IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .

Orion Protocol is, just like all other cryptocurrencies, a risky investment. It does have higher probability of going up than down because of the good use case, well-designed tokenomics, active community and a solid team behind it. How much will Orion Protocol be worth? For the short-term future, it could reach \$6.01.
