A private key is like a password a string of letters and numbers that allows you to access and manage your crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an email address (meaning you can safely share it with others, allowing you to send or receive funds), and a private key .

Yes, if youre using a VPN, you can set up and register for an account. Just keep in mind that American citizens are not allowed to use the crypto exchange.
