Orders placed via our ActiveTrader interface (each, an Order) are subject to the rates on this schedule. Gemini utilizes a maker-taker fee model for determining trading fees for all Orders. Liquidity-making Orders are charged different fees than liquidity-taking Orders. If you place an Order that is filled immediately, this Order takes liquidity from the marketplace and, therefore, you are considered a taker and will be charged a taker fee.

The first coin to mention on the list is our legend, Bitcoin (BTC). The main level has hit it bounced and it showed a nice break of structure on the one-hour time frame. This is a level of demand and then if we do come down into it we might see a nice confirmation and then a continuation back up to our target of \$45,000 to \$46,000.
