Crypto trading is, for many, a very emotional experience. The wild price moves can trigger a range of strong emotions. As extreme signals are easier to read, this could make existing AI models more suited to the crypto markets. This is something to hold in mind if you look to extract your crypto AI skills and apply them to other, more subdued markets.

If we can get safemoon listed on robinhood then the price will really sky rocket. It can't cost much to list on robinhood, knowing that doge coin has been on there for awhile now. Thoughts? Edit I fully understand how robinhood works and that it's users don't get wallets or actually own the coin. But that's besides the fact, that if listed on robinhood, then robinhood would have to buy in with hundreds of millions of dollars, and then keep buying more to please their users as they get low.

When you create an order on Coinbase Pro, we check your buying power before the order is created. Once Margin Trading becomes unavailable, your buying power decreases and we thus might not be able to execute any orders that were already created. Will I still have access to reporting for Margin trades? You can access your previous trades (including Margin trades) via the Orders or Statements sections of your account.
