The main difference between MT4 vs MT5 for this point of comparison is that MT4 has fewer technical indicators built in to the platform. However, it has a larger library of third party plug-ins than MT5 does. This is probably because MT4 has been around for longer and still has a larger community of traders using it.

Open a demo account. A demo account is the best way for newcomers to explore trading. The demo account's functionality is similar to the real account one with the exception that you trade with virtual money. Working on a demo account provides you with Forex trading experience using all the trading features provided by the MetaTrader 4 platform. You can trade in real time and learn how to analyze the markets using technical indicators without risking your money.
