Earlier crackdowns appeared to have led to capital outflows for many Chinese exchanges. Some \$28.3 billion worth of capital flowed out from crypto exchanges of Chinese origin such as OKEx, Huobi.

For Ether, particularly, users often said that they got done within 5-10 of even 20 minutes. To be on the safe side, you can take that time to be around half an hour. Therefore depending on the speed of cryptocurrencies in general, you can estimate how long it will take to make that transfer.

coinbase is one of the worst exchanges i have come across, but unfortunately its the largest in this space, everyone should shun this exchange and jump on to others than this will teach coinbase a lesson that they cannot monopolise, I lost all my crypto while transferring from another exchange but used different blockchain which is not supported by coinbase, but i had no help to resolve this.
