Mining is the process that Bitcoin and several other cryptocurrencies use to generate new coins and verify new transactions. It involves vast, decentralized networks of computers around the world that verify and secure blockchains the virtual ledgers that document cryptocurrency transactions. In return for contributing their processing power, computers on the network are rewarded with new coins.

To deposit money from your bank account to Coinbase, you need to link your bank account using Plaid (for US customers). After youve linked your bank account using Plaid, youll be able to buy crypto directly using your bank account. You can also deposit money from your bank account to your USD wallet on Coinbase.

The platform lets you stay anonymous unless your country has certain laws that require crypto exchanges to perform KYC checks on all their customers in order to be compliant. Some payment methods also require some form of ID verification.
