Long/Short Grid is a trend-following strategy that allows users to trade with the market trend within a grid trading system. This means you can open an initial position (long or short) according to your analysis, while simultaneously placing buy-limit and sell-limit orders at predetermined intervals to capitalize on market volatility and ranging conditions.

LONG-SHORT RATIO. Great for BTC and crypto environment. Absolute values of long and short positions can be misleading as since time passes new market participants join the crypto space. Also, Long tend to be long time holders, while shorters tend to be short time shorter. It is the ratio of the two levels (no matter what they are) that is a better indicator than the two of them taken separately.
