Similar to buying an index fund when investing in stocks, a crypto fund offers diversification, simplicity, less volatility and it will also change holdings over time, Siemer says.

TradingView is not a broker but rather a charting platform showing you the world wide access to market data under the form of charts. I must say it is one of the best and most seamless charting platform I have ever seen.

You can also make an account there and customize the chart to apply your method of analysis.

The some of the best crypto apps are eToro, Voyager, and BlockFi. The cryptocurrency markets are always open, so many investors use mobile apps to stay on top of market movements. The most common.

This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.
