It is a very risky trading strategy too, but with the right approach, it can be used to cash in on the short-term volatility in the market. However, not all cryptocurrencies are suited for day trading. In fact, here are some attributes that typically define the best day trading assets.

Setup. Appearance and properties of each chart in the terminal can be set up individually. To do so, one has to execute the "Charts Properties" menu command, the chart context menu command of the same name, or press F8. These actions result in appearing of the "Properties" window that can be used for setting of the color of various elements of the chart (the "Colors") tab:
