

I have a question about having multiple Coinbase wallets while using the same app on one device. I just want to make sure I'm protecting them all before I use wallet 2-10. Within the app I see that I have 10 available wallets, One can be active at a time. My question and concern is if all 10 available wallets use the same 12 word recovery phrase?

The wallet you get with a basic account is also a Coinbase wallet, even though it is not called that. That is de facto because you get a wallet with the basic account whether or not you ever get the app. If you don't get the app, then the only "coinbase wallet" you have is the one on coinbase.com. This differentiation is bullshit.

Online trading is quick and easy, but online investing takes time. With the click of a mouse, you can buy and sell stocks from one of the many online brokers offering low-cost trades. Although online trading saves investors time and money, it does not take the homework out of making investment decisions. You may be able to make a fast trade, but making wise investment decisions takes time.
