Foundation for Interwallet Operability - FIO

FIO token is a native token of the FIO chain, this covers the transaction costs of gas and manages its network. To establish network agreement, the FIO Chain employs Delegated Proof-of-Stake (DPoS). FIO coin holders vote on-chain to elect Block Producers. Anyone may register to become a BP and, if enough votes are cast, construct blocks.

As the internal economic driver, the FIO Token is utilized to pay for all fees necessary to write data to the chain. While the FIO Token is necessary to utilize the FIO Protocol users do not need to directly obtain the token, as the FIO Protocol is designed for the ability to accept indirect payments.
