This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.

TradingView is not a broker but rather a charting platform showing you the world wide access to market data under the form of charts. I must say it is one of the best and most seamless charting platform I have ever seen. You can also make an account there and customize the chart to apply your method of analysis.

The ICO was held in July 2017 shortly after the exchange launched, and saw Binance raise \$15 million in funding, with Binance Coin price at \$0.10 during the ICO. Taking Binance Coin price today, that represents an almost 4200X return on investment (ROI). Another 40% of the total supply, or around 80,000,000 BNB coins, was distributed among the founding members and team. Finally, the remaining 10% of the maximum supply was split among angel investors.
