Bittrex is known for providing an extremely secure platform for its users. Such security is ensured through two-factor authentication as well as added verification requirements for users accounts. Almost 90% of users wallets are kept online and multisig wallets are used in order to prevent possible hacking.

The fact that the only security breach on Bittrex happened in 2016 when users without 2FA protection were hacked and lost a lot of coins should be enough to illustrate to you the importance of using this method. IP And Crypto Address Whitelisting. Bittrex supports whitelisting of both IP and crypto addresses to increase your account safety.
