Arbitrage is the concept of buying and selling cryptocurrency simultaneously but on different markets. This is because of the potential profit possible due to the price difference between the markets. This is not some revolutionary new concept, but a very old one which is used in all markets.

SXP will be later used to secure the Swipe Network. The Swipe price page is part of Crypto.com Price Index that features price history, price ticker, market cap and live charts for the top cryptocurrencies.

Interactive Brokers does not accept payment for order flow for IBKR Pro customer orders. We auction off each option order among 16 top market makers. We are always happy to welcome more to this.
